Notice of Non-Compliant Amendment (37 CFR 1.121)

Continuation of 1(c) Other:

The Applicants are thanked for the Amendment filed 14 December 2007. However, a non-compliant matter has been discovered in the aforementioned response, requiring attention before examination may continue.

C.F.R. § 1.121(b)(3) requires, "The specification, other than the claims, may also be amended by submitting: (i) An instruction to replace the specification; and (ii) A substitute specification in compliance with § 1.125(b) and (c)."

C.F.R. § 1.125(c) requires, "A substitute specification submitted under this section must be submitted with markings showing all the changes relative to the immediate prior version of the specification of record. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. An accompanying clean version (without markings) must also be supplied. Numbering the paragraphs of the specification of record is not considered a change that must be shown pursuant to this paragraph."

The Amendment filed 14 December 2007 improperly removes text from the specification without using markings to show the changes relative to the immediate prior version of the specification of record (e.g., see at least Page 1, after the title of the invention, of the Amendment filed 14 December 2007).

In particular, the Amendment filed 14 December 2007 improperly deletes the sentence, "This is a Divisional Application of U.S. Application No. 10/182,828, filed August 2, 2002, which is the National Stage of International Application No. PCT/JP01/00807, filed February 2, 2001" (see Page 2 of the Preliminary Amendment filed 25 August 2003) from the first page of the specification without using markings to show the deletion.

The Applicants are respectfully encouraged to use markings showing all the changes relative to the immediate prior version of the specification of record, as required by C.F.R. § 1.121 and § 1.125.

By such reasoning, this Notice of Non-Compliance is deemed necessary and proper at this time.

Please note: The amendments have not been checked to the extent necessary to determine the presence of all possible non-compliance errors. If additional issues of non-compliance are discovered at the time of a subsequent amendment, yet another Notice of Non-Compliant Amendment will be necessitated. Applicants' cooperation is requested in correcting any other errors of which Applicants may become aware.
